

The graphic novel project

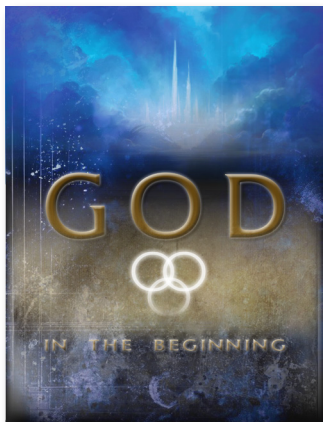

To create a “science fiction feel” but with historical, biblical and scientific evidence and reason covering creation through the flood. What do I mean? Here are a few examples.

- Original humans reflected the glory of God, physically glowing, Adam and Eve. We see this in Moses when he met with God on the mountain. Have you seen this depicted in Christian art?
- In the original Hebrew – which all can look up, the words used for satan in the garden of Eden is “nahas” from a root meaning to hiss or whisper, it means whisper, wise, clever, - but not a literal snake. The interpretation of “Snake” was used as a personification in translation- (see the section on the Garden & Lucifer in STORY on my website). Why is not satan depicted as an angel or demon being, instead of a snake? Adam and Eve could see and interact in the spirit world and see God, so a “talking snake” would be weird, but not a spiritual being talking with them.
- What the Global Flood Cataclysm did to the world, its origins, and mechanisms has not been explored well pictorially or illustrated.

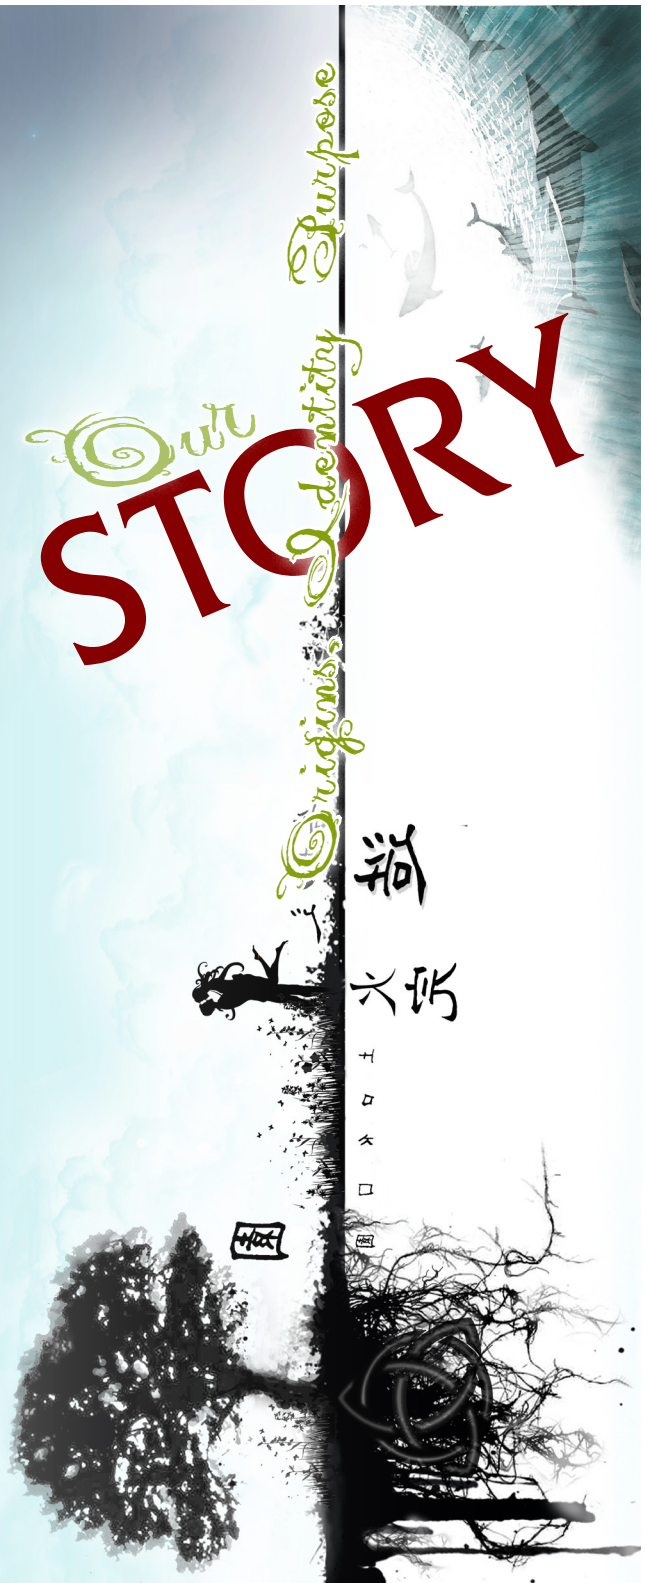

- Do Christians who believe in Supernatural Creator & Creation have a cohesive history of the world? All of our Christian beliefs and worldview find their foundational beginnings in this chronicle. Shouldn't we want to understand and explore it more?

These reasons and many more are why I am working on this Graphic Novel project. If you have more questions or want to help, I would love to talk with you.

Dear Friend

Tim stood up and openly proclaimed that Christianity was not only an unreasonable faith, but that it was bad for society and it was his goal to convert as many as he could to Atheism. Is this taking place somewhere in a communist county, China, North Korea you might ask? No, this was at Colorado State University this month during a panel debate I participated in, “Is Anybody Up There?”

I found out from his profile and blog that Tim was raised in a Christian home. Upon entering university his faith, his reasoning and his God were challenged by others, often teachers. Many of these challenges are valid questions, and I support Tim’s right to believe as he wishes. But what happened or did not happen to turn him into an ardent atheist?

That, I am still finding out as I get to know him better. The Debate that night was a success with over 200 attending. People were challenged and views shared, and I got to connect with some atheist and agnostics who, though we don’t agree, challenged each other and grew from the experience.

This is no isolated story.

Most polls and surveys indicate that nearly 70% of church-attending youth leave the Christian faith after their high school years.

<http://www.barna.org/teens-next-gen-articles/528-six-reasons-young-christians-leave-church>

I know this almost happened to me while taking geology and marine geology at CSU. I was fortunate to have had a strong discipleship foundation, a close Christian community, and an insatiable desire to learn about science, our origins, and the Creator of this world.

We are facing an epidemic, a crisis of identity in our youth and our culture. We have wrapped our lives around all the stuff of earth that perishes and falls away: looks, social status, material possessions and power. In losing our Story – the story of our Creator and us, we have lost ourselves.

This is why Father has laid on me a passion to reach the youth and my generation with discipleship materials addressing our Origins, Identity and Purpose. I have compiled **free resources** at www.sparklightplanet.com that use science, history, and the Bible as tools to strengthen the faith and worldviews of teens and university students or anyone seeking to have a faith built on sound reason, science and God’s revelation.

Ways to get involved

We need your help. I have already done a lot on my own with the encouragement of my wife and close friends. Here are some ways you can help:

- **Pray** for new avenues and open doors to share with schools, youth groups, churches and other organizations.
- If this touches your heart, **spread the word** about these resources. I am looking for partners to help in many ways: promoters, artists, e-mailers, etc. Contact me at sparklightplanet@gmail.com
- **Give:**
 - We Need about \$300 to do an outreach at HeavenFeast (a 30,000 + worship event July 28, 2012 www.heavenfest.com in Loveland) to cover booth and material printing expenses.
 - We need funds to print books, advertise and grow our reach. Send to David Harrison, 1629 Blue Spruce Dr. Fort Collins, CO 80524, payable to David Harrison. At this time, I am working on non- profit giving status or partnering with an existing ministry.

Goals over the next two years

- Get printed copies of The Spark, The Light & the Planet and STORY into the hands of like-minded ministries, doctor’s offices, etc. , for their magazine racks/ coffee tables, etc.
- Connect with all the Christian schools and home school groups in the Fort Collins, Loveland, Greeley area, and beyond.
- Continue to work with church youth groups and college ministries using STORY and partner resources in mini-seminars and talks on various origins topics.
- Provide free copies of The Spark, the Light & the Planet to receptive science teachers in the public and private schools.
- Continue to work on a graphic/illustrated novel portraying Creation through the Flood, backed up by historical, scientific and archeological information. Use the power of Art to illustrate Truth.
- Have a booth at Heavenfest – Summer worship concert event in Loveland, CO and other events.
- Continue local and global outreach via ministry partners, Facebook and other means.

We are losing our young people to empty philosophies and beliefs that end in death. Please join us in equipping and helping them reach out to their friends and those who are seeking to bring them the Hope of the Creator, and the truth of His Restoration.

David, April & Trevor Harrison
