#### **How many animals?**

Only land-dwelling, air-breathing animals had to be included on the ark (Gen. 7:15, "in which is the breath of life," 7:22). Noah did not need to bring all the thousands of insect varieties. Invertebrates can be shown to survive flooding, often by using floating vegetation mats. Sevens of flying creatures.

The Genesis Flood: An Approach Based on Logic

and Evidence

# the problem is our absolute belief that reality is subject to our perceptions - materialism

could it be that we are limited and have lost the ability to perceive and observe all of reality?

our sciences propose 10-12 dimensions, 4 of which we consider material

The Twelve Dimensions of Creation

http://www.bibliotecapleyades.net/ciencia/ciencia dimensiones01.htm

Materialism says that only what we observe with "science" is real.

"Science" is a handicapped observational system, because we are the handicapped, and can not observe all of reality.

We can not observe all of reality.

Uv-light, inferred, microscopic world, deep space machines extend observation, but how much more is out there that has not yet been observed?

## The supernatural is just the not-yet observed. The final frontier.

Or the lost observation of a degenerating humanity.

# Evidence & Relationship

Why doesn't God just show up and fix all this, if He is real?

Evidence / presence doesn't create relationship. For example: Eden & Israel

## PRIMACY

#### What comes first

Who decides reality, right & wrong?

God our Creator
Or
Mankind

## Does God become the plow horse of Naturalistic Evolution?

Pulling natural selection, mutation, disease and death over the cons of time in the creation process?

We /our science decides when He can be supernatural and when He can not.

#### The "Whys" of Pain and Suffering

If there is a Supernatural Creator, what is the plan and purpose for allowing pain and suffering in the world. This question is at the heart of Christian belief. It must be answered.

Come explore the choice of a Creator to bring life into the world and how relationship is at the root of our existence and our pain.

by David H. 2014 <u>www.sparklightplanet.com</u> free digital pdf verson online

Talitha stared up into her father's face, her eyes pleading, showing her internal pain and turmoil. Her little body shook with pain as the cancer swept over her body, an unnatural invader, her youth, laughter and life stolen away in ruthless degeneration.

"Why, Daddy Why?" Escaped her lips for the last time as her brown eyes asked in a thousand ways one of the deepest questions of all humanity.

For the rest of her story see page 7

You may have escaped, evaded or avoided this question. Or you may have let it determine your life like a parasite stuck in your gut, causing you to hate God, give into despair, or think religion a farce.

#### What exactly are we talking about when we speak of pain, suffering, and evil?

It is generally described as an unbalanced/unnatural/unwanted state of affairs. Humans have a concept of what *ought* to be, regardless of religion. We see death, pain, suffering, disease, catastrophes, and certain choices as unnatural or evil. See page 2\*

There are two kinds of evil: personal evil and natural evil. Personal/moral evil is caused by intelligent beings: humans and supernatural beings (if they exist). Personal evil is a choice which brings destruction, death, or perishing into the world and into another being's life. Many actions and inactions bring death for example: lies kill relationships, addictions destroy freedom, murder is the most obvious of personal evils.

# The Divine Council

an ancient concept

The Council of God Vision of St John the Evangelist Unknown German Master

"[The divine council is] the heavenly host, the pantheon of divine beings who administer the affairs of the cosmos. All ancient Mediterranean cultures had some conception of a divine council. The divine council of Israelite religion, known primarily through the psalms, was distinct in important ways." Michael S. Heiser, Dictionary of the Old Testament: Wisdom, Poetry, & Writings; ed. a holy one, came down from heaven... <sup>16</sup> Let his mind be changed from a man's, and let a beast's mind be given to him; and let seven periods of time pass over him. <sup>17</sup> The sentence is by the decree of the watchers, the decision by the word of the holy ones, to the end that the living may know that the Most High rules the kingdom of men and gives

the living may know that the **Most High** rules the kingdom of men and gives it to whom he will and sets over it the lowliest of men.' <sup>18</sup> This dream I, King Nebuchadnezzar, saw. And you, Obelteshazzar (Daniel), tell me the interpretation, because all the wise men of my kingdom are not able to make known to me the interpretation, but you are able, for the spirit of the holy gods is in you."...

## The Watchers/Sons of God

<u>Daniel 4:23</u> And because the king saw <u>a watcher</u>, <u>a holy one</u>, coming down from heaven and saying,

'Chop down the tree and destroy it, but leave the stump of its roots in the earth, bound with a band of iron and bronze, in the tender grass of the field, and let him be wet with the dew of heaven, and let his portion be with the beasts of the field, till seven periods of time pass over him,'

Job Continues: My Life Has No Hope

Job 7:20 If I sin, what do I do to you, **YOU Watcher** of mankind? Why have you made me your mark? Why have I become a burden to you?

Is he talking to ...

God or "the accuser" - a supernatural

1:6 Now there was a day when the sons of God came to present themselves before the LORD, and Satan<sup>[b]</sup> (the Accuser or the Adversary -original language) also came among them.

<sup>7</sup> The LORD said to Satan, "From where have you come?" Satan answered the LORD and said, "From going to and fro on the earth, and from walking up and down on it."

#### Are Angels = the sons of God?

Job 38:1-7

God speaking – Were you there when I laid the foundation of the earth? ... When the morning stars sang together and <u>all the sons of God</u> shouted for Joy.

Luke 20:35-36

**English Standard Version (ESV)** 

<sup>35</sup> but those who are considered worthy to attain to that age and to the resurrection from the dead neither marry nor are given in marriage, <sup>36</sup> for they cannot die anymore, <u>because</u> they are equal to angels and are sons of God, being sons<sup>[a]</sup> of the resurrection.

If sons of God are angels, why use two descriptors?

God = Creator
Sons of God/ Watchers = ruling / judges
Angel = messenger

#### Are Angels = the sons of God?

God = Creator/ eternally existent

Sons of God/ Watchers = ruling / judges
(supernaturals) (small #) (contingent Immortality)

Psalm 58:1[God Who Judges the Earth] [To the choirmaster: according to Do Not

Destroy. A Miktam of David.] Do you indeed decree what is right,
you gods? Do you judge the children of man uprightly?

Ps 82, 97:7, Deut 10:17, 29:26, 32: 17,43, Jeremiah 10:11,
Ezekiel 28:2, Daniel 2:11, 47, 1 Corinthians 8:4-6, Rom 8,
1Pet 3:22

Deuteronomy 32:8 When the Most High gave to the nations their inheritance, when he divided mankind, he fixed the borders of the peoples according to the number of the sons of God. (70) Gen 10-11 (Daniel 7:10; Matthew 26:53; Hebrews 12:22)

Angel = messenger: does the bidding of God and sons of God (huge #) (contingent Immortality) not a judge or ruler of men 1 Cor 6:3 we judge them Was the Nacash / Shining One / Adversary an angel, a son of God or something else?

Are Angels = to sons of God?

If Angels are the sons of God. Then do we become Angels?

The NT clearly says that We- Believers will become the Sons of God
We will replace the fallen sons of God – not fallen angels

Luke 20:35-36

**English Standard Version (ESV)** 

<sup>35</sup> but those who are considered worthy to attain to that age and to the resurrection from the dead neither marry nor are given in marriage, <sup>36</sup> for they cannot die anymore, because they are equal to angels and are sons of God, being sons<sup>[a]</sup> of the resurrection.

•God's council / family has suffered defections in the past.

(Free will- choice – love relationship)

- •Some of these fallen sons of God are imprisoned, other are not.
- •God has always wanted humanity to be part of this diving council-family, but the fall interfered with this.
- •After the Babel rebellion, God gives the nations over to their self- willed desire to NOT follow him; as punishment the nations are "allotted" to lesser corrupt elohim (gods).
- God then raises up a new family ex nihilo Abraham / Israel
- •The Church inherits the status of and promises to Israel in Jesus Christians are the new sons of God. Rf Gal 6:16
- •Humanity will become "divine" of the supernatural realm ("like Him") at death / glorification and rule with Christ at his coming. 1John 3 not sure of our final state?
- •This plan to re-institute redeemed humanity to "divine" ruler-ship status will be opposed by the fallen sons of God (Watchers- book of Enoch) and their spiritual leader (Satan) and their own god-man-king (Antichrist)

#### Summary of "Who are the sons of God"

- Sons of God are part of God's Divine Family hierarchy / government
- Sons of God in OT are small in number, part of a ruling/judging council under the Creator Yahweh
- ❖The nations are placed under their governing
- Many are not just in their ruling and are judged
- Humans are created to become sons of God and rule angels
- ❖Adam and Eve fail in their "upbringing" are judged but given mercy and promise of restoration
- ❖ Believers through Christ are adopted into the family of God as sons of God and rule the nations and angels in God's Kingdom

#### Giants

Who were the Nephilim?

#### **Giants**

 The Hebrew/Aramaic means giants, not fallen ones

#### http://www.sitchiniswrong.com/

Sitchin assumes "nephilim" comes from the Hebrew word "naphal" which usually means "to fall." if the word *nephilim* came from Hebrew *naphal*, it would not be spelled as we find it.

The form *nephilim* cannot mean "fallen ones" (the spelling would then be *nephulim*).

However, in Aramaic the noun naphil(a) does exist. It means "giant," making it easy to see why the Septuagint (the ancient Greek translation of the Hebrew Bible)

translated nephilim as gigantes ("giant").

#### Why the Flood

Genesis 6:3 And the LORD said, My spirit shall not always strive with man, for that he also is flesh: yet his days shall be an hundred and twenty years.

Remember the context of this sixth chapter of Genesis--Here God is: 1.) declaring displeasure with man; and 2.) announcing plans to destroy man.

http://www.biblecalculator.com/study\_flood\_questions.html

Men seeking immortality – unions with supernaturals

(Sons of God)- both are judged in the flood

http://www.youtube.com/watch?v=RHgjGUbFwhE Genesis 6 - The Sons of God, Daughters of Men, and the Nephilim: Michael Heiser

#### Why the Flood

Genesis 6:3

The message is not, God will cease striving with men after each one lives (an average of) 120 years. Rather, God plans to call them all down to the grave together, after the expiration of 120 years... by means of a universal flood.

hidden in the very start of the chapter (v. 1,2) are seeds of man's drift into sin-- for it says, the sons of God inter-married with the daughters of men. SOG are imprisoned- humans & nephilim face death. A judgment & rescue of Humanity

- The Bible itself tends to refute any 'lifespan shortened to 120 years interpretation of Genesis 6:3:
- Men continued to experience centuries-long lifespans: For instance, Noah himself lived to be 950 years at his death; Shem, 600; and Arphaxad, 438.

# Global Cataclysm or Locallegend

They will say, "Where is this 'coming' he promised? Ever since our ancestors died, everything goes on as it has since the beginning of creation." (Uniformitarianism) 5 But they deliberately forget that long ago by God's word the heavens came into being and the earth was formed out of water and by water. 6 By these waters also the world of that time was deluged and destroyed. 7 By the same word the present heavens and earth are reserved for fire, being kept for the day of judgment and destruction of the ungodly. 2 Peter 3:4-7

#### What's the Big Deal?

Local year-long floods never cover high hills or mountains

Local floods never wipe out all or much animal and plant life

Why is Noah commanded to take birds if it is a local flood?

#### Importance of the Flood

No Flood or Local Flood

Worldwide Flood

#### Fossil Record Interpretation

- Does God exist?
- 2. Is He an omnipotent, omniscient Being?
- 3. Is a worldwide flood possible?
- 4. What does the Bible teach about the Flood?
- 5. Are long ages necessary for what we observe?
- 6. Is there any evidence for a worldwide flood?

# Genesis According to the Miao People

by Edgar A. Truax

http://www.icr.org/ article/genesisaccording-miaopeople/

The Miao tribes, or as it is spelled in most encyclopedias
"Miautso," at one time occupied most of inland China south of the
Yangtze River, but have been gradually driven into the mountains
of the southwest by the better-armed and better-organized
Chinese. The Miao of our section claim to have been driven out of
Kiangsi Province.

The Miao traditions are very precise, as compared with those of many primitive peoples, because they are not only handed down in metrical form, but, also, they are in couplets, in which the same or similar meaning is expressed in different wording, so that the second sentence acts as a definition of the first, where it might otherwise not be clear. This is very much like one form of Hebrew poetry - an example of which is found in Psalm 21:1,2.

#### Notes on the Descent of the Miautso People of China

- 1. Dirt: This is Truax's English rendering of the original name, not a transposition. It is clearly meant to portray Adam, the version of whose name in the Miautso language (as in Hebrew, Akkadian and so on), means earth or clay, the substance from which he wascreated.146
- 2. Se-teh: The Biblical Seth.
- 3. Lusu: The names in the book of the Generations of Adam (Genesis 5) that immediately follow that of Seth are: Enos, Cainan, Mahalaleel, Jared, Enoch and Methuselah. The name Lusu may conceivably be identified as a corruption of one of the elements of Mahalaleel. Otherwise, it is unidentifiable.
- 4. Gehlo: A corruption, perhaps, of the final element of Methuselah's name. Otherwise, it is unidentifiable.
- 5. Lama: The Biblical Lamech.
- 6. Nuah: Noah. In the Miautso account, Nuah was a righteous man who was commanded by God to build a great ark. The release of the dove from the ark is mentioned amidst a graphic and somewhat horrifying depiction of the Flood itself and the eventual drying out of the land.
- 7. Gaw Bo-lu-en: Apart from certain Jewish traditions, this is an interesting and rare naming of Noah's wife. Genesis, of course, does not give her name.
- 8. Lo Han: The Biblical Ham. The descent of the following identifiable patriarchs is given along with a graphic account of Babel and the confusion of tongues. It is then told how the nations spread out from Babel and encircled the globe. This is a surprising preservation of ancient knowledge, for the Miautso, at the time

Bill Cooper B.A. (Hons).

# The Genealogy of the early British Kings

The following genealogy shows the descent of the early British kings as it was traced down from Japheth, the son of Noah.

The sources for this are Nennius 17 and 18 (see
Appendix 5), covering from Japheth to Brutus; and Geoffrey of Monmouth who carries the story on from Anchises. To gain an idea of the time-scale involved, I have included the dates of each king's first year of reign as far as that can be calculated from internal and external sources. The Welsh chronicle agrees with Geoffrey of Monmouth almost exactly, although the names are obviously closer in the Welsh to the original early British forms than they are in Geoffrey.

For ease, I have used here Geoffrey's latinised forms.

# The Descent of the East Saxon Kings

(from whom the English county of Essex derives its name)

The genealogy of the East Saxon kings (from whom the English county of Essex derives its name) was discovered comparatively recently. It was being used as part of the binding of an old book. However, it was happily retrieved and published by Sweet in The Earliest English Texts. (Oxford Univ. Press. 1885. p. 179). In the original document the genealogy is set out as follows, the letters appearing here in parentheses belonging to those small portions of the document that had been cut away when binding the book:

- "Geoffrey of Monmouth's History of the Kings of Britain (see bibliography) and Jesus College MS LXI, the so-called Tysilia Chronicle.

"" From The Early History of Rome (see bibliography).

#### Note

In the above table, I have brought together the genealogies contained in no less than five diverse and ancient sources which show the descent of certain early patriarchs. Three of those sources begin with the same original, namely Japheth, otherwise remembered as Jupiter amongst the ancient and pagan Latin races, thus demonstrating beyond any reasonable doubt that Japheth was synonymous with Jupiter. And two of them end with

Brutus, the eponymous founder of the early Britons. All of the sources differ from one another in many and various points, which rules out interdependency or copying.

However, they also agree on many independent points, which demonstrates the historicity of the patriarchs listed. If it were at all possible to cite a comparable case where such ancient patriarchs are commonly listed amongst such diverse and independent sources, there can be little doubt that their historicity would be accepted without question amongst modern scholars. After all, the historicity of many other characters from the ancient world is accepted on much less evidence than this. Indeed, their historicity is accepted, more often than not, merely upon the single appearance of a name, without any other corroborative evidence being required. And yet the above genealogies that present the historian with such uniquely comprehensive and corroborative evidence are commonly listed as myth and fable. Perhaps the reason for this is better pondered upon than stated.

#### About the Author

Walt Brown received a Ph.D. in mechanical engineering from the Massachusetts Institute of Technology (MIT), where he was a National Science Foundation Fellow. He has taught college courses in physics, mathematics, and computer science. Brown is a retired Air Force full colonel, West Point graduate, and former Army Ranger and paratrooper. Assignments during his 21 years of military service included: Director of Benét Laboratories (a major research, development, and engineering facility); tenured associate professor at the U.S. Air Force Academy; and Chief of Science and Technology Studies at the Air War College. For much of his life Walt Brown was an evolutionist, but after years of study,

he became convinced of the scientific validity of creation and a global flood. Since retiring from the military, Dr. Brown has been the Director of the Center for Scientific Creation and has worked full time in research, writing, and teaching on creation and the flood.

For those who wish to know more about Walt Brown, a new book (Christian Men of Science: Eleven Men Who Changed the World by George Mulfinger and Julia Mulfinger Orozco) devotes a chapter to Brown. It may be read by clicking here.

juveniles: smaller, more durable — live and procreate longer — travel — continent earth Dinosaurs? Average size of adults: a Car babies of the largest were cow — elephant size

The animals – numbers, kinds, ages Food and water

Most or all are herbivore or can subsist on plant matter (hibernation)

Their would have been thousands of tons of floating plant/ log mats on the ocean

### Food and water

The water salinity would not have been as great, and would have been drinkable

aquatic creatures can adapt from fresh to salt most of the salinity of the oceans today is due to land runoff: erosion

Post flood their would have been much more rain / snow condensation before, during and after the ice age.

Gathering the animals – 120 years & God's aid (supernatural intervention)

### The people - eight?

8 adults - Kids? "you and all your household"? larger and stronger humans

children aren't counted in Bible

very smart – labor saving devices, efficient design, food & water preservation – dehydration etc.

How could all of human and land /air animal life come from so few on the ark?

Evolutions has at least 2 extinction events, yet they believe the same

Genetic bottlenecking – explosion and variability

Human variation: neanderthals, pigmies, giants, etc

# Rupture Phase

# Massive erosion and ejection into space

### Water Cataclysm

### Water Earth

Mt. Everest was once covered with water and uplifted afterward. If we even out the ocean basins and flatten out the mountains, there is enough water to cover the entire earth by

about 1.7 miles (2.7 km). 4 Also important

to note is that, with the leveling out of the oceans and mountains, the Ark would not have been riding at the height of the current Mt. Everest, thus no need for such things as oxygen masks either.

### Water saturated sedimentary rock

For centuries after the flood, water drained out of mountains and cliffs. Caves were carved by outward flowing water. New inhabitants to an area sought out and settled around these plentiful sources of water. (Thus, many ancient cultures believed that water originated in mountains and flowed out of

<u>Caves.</u>)<sup>28</sup> Years later, as water sources dwindled, communities were forced to leave. Prosperous cultures, such as the Anasazi and cliff-dwellers, suddenly disappeared from an area, causing anthropologists to wonder if disease, war, famine, or drought destroyed those ancient communities. No; their water simply dried up.

28. "Spanish documents from the 16th century and scientists' interviews of the area's current inhabitants [descendants of ancient Mayan (A.D. 200–900) peoples of central Mexico and Central America] reveal a longstanding regional belief that water originates in mountains and issues out of caves." I believe mutation can corrupt information, scramble information, and change it horizontally, but that it is utterly unable to account for the changes necessary for long-term evolution. Also, evidence is accumulating for the existence of genetic algorithms designed to facilitate changes to the DNA sequence. Dr. Peter Borger has coined the term "variation inducing genetic elements" (VIGEs) and we happily incorporate them into the creation model. Since these changes would be caused by pre-programmed genetic modules, it is hard to call these changes "mutations". The HLA genes in particular, as a vital part of the immune system, are pre-programmed to scramble, so using them as proof for your beliefs is an error on your part.

The ancients of Egypt, Canaan, and Atlantis, were measuring and mapping the globe during the Ice Age, when there was much more rainfall in the Middle Eastern and North African regions, and then the sea level rose by a few hundred feet because of the end of the Ice Age, causing the submergence of coastal megalithic city-states now found off Egypt, Lebanon, Malta, southern Spain (Atlantis), southern Japan, and off northwestern and southern India.

The Ice Age navigators were able to measure and thereby map the globe, as evidenced with the astronomically-derived dimensions of the Great Pyramid of Giza, which demonstrates that the ancients measured the rate of the slow wobble of the earth's axis against the backdrop of the constellations of the zodiac, and maps by the ancient sea kings reveal that the Ice Age navigators did accurately measure and chart the globe, with marvelous accuracy, so experience this paradigm-shifting account of ancient history by ordering the book and/or DVD through this website.

The new book and DVD production by James I. Nienhuis, about the development of the post-Deluge civilization, is a fascinating look at a subject which has been dealt with very little in our times. I am sure most would find it very fascinating.

#### The New World

#### A restoration to what?

If you believe in NP Evolution there is no restoration, just the hope that in the future Humanity will survive and evolve

If you are a Theistic Evolutionest than restoration by God is possible, but will pretty much look like life today, as it is a restoration to a world full of death, mutation / disease, survival of the fittest – natural selection and chance, somewhat guided

Natural selection & mutation destroy information in genes
The Fossil record is evidence of this

#### The New World

#### A restoration to what?

If you believe Supernatural Creation and thus a Perfect – purposeful, harmonious creation separated by Human choice and degenerating to death,

than restoration means a new heavens, earth, animals & humanity - immortality, restored abilities, restored relationships, death defeated, and a universe in which the story of God expands forever

This fossil salamander uncovered in China is the world's oldest known salamander. As a result of some sudden volcanic eruption, fossil remains are often very well preserved under a layer of ash, so well that it is even possible to detect some of their soft tissues and the last food they ate.

These fossil salamanders are no different from those alive in our day. Amphibians that remain unchanged for hundreds of millions of years once again demonstrate that evolutionists are wrong.

changes have happened in the head structures of tens of thousands of living species over millions of years, no evolutional change occurred in the skulls of men. Just as fish have always remained as fish, birds have always remained as birds and reptiles remained as reptiles, so men always remained as men. No organ or structure of any living being have "evolved" from the primitive to more advanced forms, as evolutionists continually sug-

While evolutionists talk about the so-called evolution of man, they make their own evolutionary arrangement and family tree, presenting the volumes, eyebrow projection or forehead structures of the skulls they unearth as evidence. But these structural differences are by no means any evidence for evolution, for some of these skulls belong to different races of men who lived in the past, whereas others belong to some extinct species of ape. It is utterly natural that different human races

like the native to the side, have the large eyebrow projections and the foreheads that are inclined backwards-features peculiar to Homo erectus skulls.

#### DISPARITIES BETWEEN THE SKULLS OF HUMAN RACES

It is perfectly natural that a Japanese has a different skull do not presuppose that any race is more developed or less progressed than any other and can never count as evolutionary evidence. These differences simply reflect the diversity and supremacy of God's creations.

#### 47 inch **Human Femur**

In the late 1950s. during road construction in south-east Turkey in the Euphrates Valley. many tombs containing the remains of Giants were uncovered. At two sites the leg bones were measured to be about 120 cms '47.24 inches". Joe Taylor. Director of the Mt. BLANCO FOSSIL MUSEUM in Crosbyton, Texas, was commissioned to sculpt this anatomically correct, and to scale, human femur. This "Giant" stood some 14-16 feet tall, and had 20-22 inch long feet. His or Her finger tips, with arms to their sides. would be about 6 feet above the ground. The Biblical record, in Deuteronomy 3:11 states that the Iron Bed of Og, King of Bashan was 9 cubits by 4 cubits or approximately 14 feet long by 6 feet wide!

Maximinus was probably the biggest man ever to hold the office of Roman emperor. The Historia Augusta has it that he was 8 ft 6 in (2.6 m) tall, and so strong that he could pull laden carts unaided! The size of his footwear was also legendary, and the expression 'Maximinus's boot' came to be used in popular parlance for any tall or lanky individual. Surviving portrait busts, such as this one from the Louvre, show Maximinus as a heavily-muscled man with powerful jaw and close-cropped hair, the image of a seasoned soldier.
